# Maya Chaker

Tripoli, North Lebanon | +961 79 169 718 | mayachaker06@gmail.com |https://github.com/MayaChaker

## PROFESSIONAL SUMMARY

Junior Computer Science graduate with hands-on experience in full-stack web development using React, Node.js, Express, and MySQL. Built real-world applications including a hospital management system featuring authentication and role-based access control. Completed practical IT training in a hospital environment, gaining exposure to real system workflows. Motivated to contribute as a Junior Full-Stack in a professional development team.

## TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Java, Python
- **Frontend:** React, HTML5, CSS3
- **Backend:** Node.js, Express.js
- **Database:** MySQL, SQL
- **Tools:** Git, GitHub, Postman
- **Concepts:** RESTful APIs, JWT Authentication, MVC Architecture

## PROJECT

**SmartCare – Hospital Management System (Final Year Project)**

- Built a full-stack hospital management system using React, Node.js, Express, and MySQL
- Developed role-based access control system for Admin, Doctor, Receptionist, and Patient
- Implemented secure authentication using JWT-based login system
- Designed and built RESTful APIs for managing patients, appointments, and hospital workflows
- Created structured hospital workflow simulation including appointment scheduling and patient management flows
- Integrated frontend with backend to ensure smooth and real-time data handling
- Designed a scalable database structure to support hospital operations and multi-role access

 **Live Demo:** https://smart-care-hms.vercel.app/  **GitHub:** https://github.com/MayaChaker/SmartCare-HMS.git

**BMW Website (Frontend Project)**

- Built a responsive BMW-themed landing page using React, HTML, CSS, and JavaScript
- Designed a modern UI inspired by BMW's official branding and automotive website structure
- Implemented smooth navigation and structured sections for vehicle showcasing and presentation
- Focused on UI/UX consistency, layout hierarchy, and responsive design across devices
- Created a clean and professional front-end experience similar to a real product marketing website

 **Live Demo:** https://bmw-gilt-ten.vercel.app/  **GitHub:** https://github.com/MayaChaker/BMW.git

**Taskora – Task Marketplace Platform (Frontend Project)**

- Built a modern front-end task marketplace and social platform using React
- Implemented task browsing system with search, filter, and sorting functionality for better user experience
- Developed core features including task creation, saving, and management system
- Built chat and inbox notification system per task to simulate real communication flow
- Designed user settings module with profile customization and theme switching support
- Used React Router for navigation and structured multi-page application flow

- Implemented localStorage persistence to simulate backend-like data storage without a server
- Focused on responsive UI design and clean component-based architecture

 **Live Demo:** https://social-media-weld-gamma.vercel.app/  **GitHub:** https://github.com/MayaChaker/SocialMedia

## EDUCATION

**Bachelor's Degree in Computer Science** 2022 – 2025
Arab Open University

**Baccalaureate in Life Science** 2021 – 2022
El Haddadin with grades 15.11

## CERTIFICATIONS

- Bug Bounty Workshop (2025)
- Game Development Level 1 (2025)
- JavaScript Bootcamp (2024)
- HTML/CSS Programming (2023)
- Inside the Mind of Ethical Hackers – Semicolon Security (2025)

## EXPERIENCE

**Arab Open University-** Academic Projects, Software Development

2022 – 2023

- Designed and developed Java desktop applications using object-oriented programming.
- Created simple and user-friendly interfaces**.**
- Worked with team members in an Agile environment to complete tasks and fix issues.
- Took part in code reviews to keep the code clean and improved.

**IT Department Trainee-** NINI Hospital

2025

- Supported troubleshooting of system and user-related technical issues
- Gained practical exposure to hospital information systems and workflows
- Collaborated with IT staff to maintain system functionality and resolve problems

## VOLUNTEERING & RECOGNITION

- Certificate of Recognition – Frameworks for the Sustainability and Development of Volunteer Works (2024): Earned for the efforts made in spreading the culture of volunteerism in the Arab world

## ADDITIONAL INFORMATION

- Technical Skills: Microsoft Office Suite (Word, Excel, PowerPoint)
- Languages: Arabic (Native), French (Fluent), English (Intermediate)
